WHY COOPER MCCULLOUGH GROUP?

To provide our clients with modern, reliable plant & equipment for long & short term hire, enabling safe and efficient operating practices.

ABOUT US

Cooper McCullough Group (CMG) Pty Ltd was founded by company directors Ryan Keating (Cooper Civil & Mining) and Lachlan McCullough (McCullough Construction & Consulting), on the back of strong performances in their previous companies.

Cooper McCullough Group is a Queensland based plant hire company primarily servicing Central and South-East Queensland. The directors bring a combined 40 years of experience in the mining and construction industries. Cooper McCullough Group provides a modern fleet of the latest technologically advanced machines available.

SAFETY & CULTURE

Cooper McCullough Group take our health and safety culture very seriously and do not compromise on safe work practices, continually striving for Zero Harm to people across all our work fronts. Health and Safety is ingrained in our culture and we are continually challenging our people to look for innovative ways to reduce risks when delivering works. Our people are the heart and soul of the company and the reason for the energetic 'can do' attitude exhibited throughout the organisation. Cooper McCullough Group personnel are highly qualified, experienced, passionate and driven, and this is reflected in the quality of work delivered.

PLANT HIRE

Cooper McCullough Group has a new low-hour fleet of mine compliant & civil spec equipment to minimize downtime, improve reliability, and attract a higher calibre of operator. Cooper McCullough Group operate a majority Caterpillar Next Generation fleet with the latest technology and E-fence safety features providing lower greenhouse gas emissions boasting the lowest fuel burn per hour available for our clients. All machines come with factory GPS capability and UTS where required.

Cooper McCullough Group offers both dry hire and full wet hire arrangements with experienced final trim operators. Some of the equipment we have available include;

- Excavators – 1.8t to 50t
- Graders – 140m and 150 Next Gens
- Skid Steers & attachments
- Watercarts – Body Truck and Semi Tankers
- Compaction Equipment - compactors, padfoot & smooth drum rollers
- Trucks – single side tippers to road trains
- Heavy Haulage
- Hydrovac trucks/ trailers
- Scissorlift hire
